

BANK CASE WILL COME TO TRIAL

Judge Newman Directed to Hold Special Session of Court at Asheville.

[Special to The Times-Dispatch.]
ASHEVILLE, N. C., March 27.—Chief Justice Fuller, of the United States Supreme Court, has issued a warrant directing Judge Newman, of Atlanta, to hold a special session of United States Circuit Court and district court here beginning "June 14 or as soon thereafter as is practicable and continuing until the business before said court is concluded." The court was called on the certificate of Judge Fritchard that it is necessary.

The old "bank case," involving several officers of the old First National Bank, who are charged with conspiracy to wreck the bank, will probably be disposed of after having been in the courts for eleven years.

Major William E. Breeze, president of the defendant institution, was found guilty of conspiracy at Charlotte some years ago and sentenced to the penitentiary, but appealed to the United States Circuit Court of Appeals, which set aside the decision of the lower court on the ground that two members of the grand jury which returned the indictment had not paid their taxes.

Prior to this trial, an indictment had been returned against Major Breeze and William H. Benland, cashier of the failed bank, charging them with conspiracy to wreck the bank. Both will be tried here at this time of court.

Judge Newman spent last summer here, and heard lengthy arguments by both sides involving a motion by counsel for the defendants to quash the bill of indictment on the ground that one or more members of the grand jury that returned it had not paid their taxes at the time it was returned. The motion was overruled by Judge Newman, and the indictment was held legal.

The trial will require two or three weeks or possibly longer. It is understood that all will be placed on trial at the same time, instead of one at a time as at previous trials. Mr. Benland has never been tried before.

PAYNE AND CLARK MEN OF THE HOUR

(Continued from Page One, Column 1)

That is represented as a great boon to the American consumer.

And by the way, one thing that happened in these hearings is that the gentleman from Illinois added a new phrase to the American vernacular, and that is "the ultimate consumer," that phrase will live. Happy is the phrase-maker. Half of Grover Cleveland's success in the world depended on the fact that he could turn a good phrase.

Newspapers say that one of the members of the committee described that reduction of five one-hundredths of a cent on a pound of refined sugar as a blow between the eyes to the sugar trust. It seems to me that it was a love lick. When the sugar trust received that tremendous blow between the eyes instead of seeing stars, as is the usual result of a blow between the eyes, it saw a stream of gold, like unto the River Pactolus, flowing into its coffers every year during the life of the Payne tariff bill. That is what it saw—enabling it to pile up more millions of ill-gotten gains which it does not need. The average consumption of sugar in the United States is about eighty pounds per capita per year, so that a man must eat sugar at the top of his speed for fifteen months in order to find an additional nickel in his pocket at the end of that time, and if he loses a day out of the whole fifteen months he will not be able to get the nickel. Why this remarkable tenderness for the sugar trust? It receives a rate-of 25 per cent. on every hundred

pounds of refined sugar. It is a great criminal.

"It is not only a trust, but a criminal. Two or three weeks ago the United States government recovered against it a judgment for a little more than \$134,000 for swindling in false weights, and the government has lawsuits pending against it now for the same thing amounting to over \$3,000,000, and every man engaged in that swindling transaction ought to be in the penitentiary unless, as some people assert, and more believe, there is one punishment for a small thief and a more lenient punishment for a big thief."

This sentence indicates Mr. Clark's manner of speech. He may not be a good captain, but he can strike hard. He bucks the line well, whether he compels good team work or not.

Messrs. Payne and Clark are the men of the hour. Senators Aldrich and Daniel will have their day in the Senate.

RENEWED RENUNCIATION Prince George Now Has the Indorsement of the King.

S. A. L. Pier Is Sold. [Special to The Times-Dispatch.] NORFOLK, VA., March 27.—The Seaboard Air Line has sold to the Atlantic Coast Terminal Co. pier No. 5, on the Portsmouth side of the Elizabeth River, for a consideration said to be \$150,000.

The purchasing company is controlled by the Norfolk and Portsmouth Traction Company, the lessees of the Norfolk and Portsmouth Ferry System. The purchaser also holds water front property in Norfolk, and W. W. Moss, who negotiated the deal, says that it puts the Traction Company in a position to operate its own system of ferries should it not care to buy in the ferry lease for another ten years when the same is put up at auction Tuesday.

The truck robbery mystery was never solved, and the accused was dismissed in the Police Court Wednesday.

GILES JACKSON CALLS ON TAFT

President Is Presented With a History of the Negro Race in the United States.

Giles B. Jackson, the leading colored lawyer of Richmond, accompanied by W. Isaac Johnson, R. T. Hill, W. R. Griffin and T. A. Hill, colored men of Virginia, called on President Taft at the White House Friday afternoon and presented him with the first prose copy of "The Industrial History of the Negro Race of the United States." Jackson made the presentation speech, telling the President the aims and scope of the book and requesting that he give it his careful attention.

Incidentally the spokesman told the President that he felt confident "that when the proper time shall come, and when you will have read this volume, which, after all, gives but a slight insight into the magnificent exhibit of the negro race at the Jamestown Exposition on account of its brevity, you will recommend to Congress a suitable appropriation that a full and complete history may be published for the benefit of the American people."

President Taft gave the dedication a cordial reception and, when it was all over, the colored men were very happy. Jackson, who is one of the authors of the book, visited Captain John Lamb, Senator Daniel and other of the Virginia delegation in Washington.

IDENTIFY THE BODY

Remains Found Monday Were Those of Edward Berry. J. E. Van Epps, a lumber manufacturer of Jetersville, has identified the body which has been in a local undertaking establishment since Monday morning, as the remains of Edward Berry, formerly a sawmill gang near. The belief is that Berry came to Richmond on a spree, and that he was robbed and possibly murdered. He knew the city well, and there are said to have been many places in which he could have secured a lodging, even if he could not pay cash for accommodations.

Coroner Taylor, who has official charge of the remains, said last night he would not hold an inquest until every possible chance to secure clues had been exhausted. Mr. Van Epps said he had been a hard-working man, and his sudden end has occasioned great surprise in Jetersville.

It is not noted in the papers of the Rev. J. B. Hutson, pastor of Pine Street Baptist Church, on Monday that a brief trip, the bride couple returned to Richmond on Friday, and are at home at 213 Randolph Street.

Bowler-Dillon. Patrick H. Bowler and Miss Lella C. Dillon were married in the parlors of the Rev. J. B. Hutson, pastor of Pine Street Baptist Church, on Monday at 10 o'clock. The bride, Miss Dillon, is a native of Richmond, and is at home at 213 Randolph Street.

Talmage-Grasswith. Mr. and Mrs. W. W. Grasswith have been married in the marriage of their daughter, Emma James, to P. P. Talmage, of Portsmouth, Va.

The ceremony will take place on Wednesday afternoon at 2 o'clock at their home, 2510 East Grace Street.

Does Not Mingle With or Emanate from the Table of Dyspepsia. In the home, meal time should be a time when the inhabitants of a household are united in the enjoyment of the home the abiding place of interest and happiness.

If one member at the dinner table is out of sorts, his influence is felt and the harmony is lacking. Conversation and mirth are absent. Devouring thoughts assail the diners and silence prevails.

All physicians agree that mirth and joy are the best of all remedies for dyspepsia. Mirth tingles the whole nervous organism of man, the cells wherein are stored valuable digestive juices, empty their contents under the nerve stimulation and promote the highest degree of digestion.

If gloom and discomfort prevail at table the reverse action obtains, and meals become necessities, not anticipations of joy.

Stuart's Dyspepsia Tablets are little storehouses of digestion, which mix with the stomach juices, digest the food, retingle the mucous membrane and its nerve centres, give to the blood a great wealth of valuable fluids, promote digestion and stays by the stomach until all its duties are complete.

If dyspepsia sits at tables it makes the dinner room a place of awe; these tablets should be taken after meals, and dyspepsia of a consequence flees. No need for diet or fasting. The dyspeptic who will use them religiously will find no sense of nausea or the slightest of gastric troubles or the odor of rich cooking.

It matters not what the condition of the stomach, Stuart's Dyspepsia Tablets only improve the juices and bring quiet to the whole digestive canal, of which the stomach is the centre.

Forty thousand physicians use these tablets in their practice, and every druggist sells them. Price 50c. Send us your name and address and we will send you a trial package with full free literature. Write to Stuart's Dyspepsia Tablets, Marshall, Mich.

NET UNDER BROAD-STREET HILL

Seaboard Air Line Has Closed Deal for Improvements to Cost \$125,000.

Improvement necessitating the tunneling of Broad Street and the construction of a freight station on the property formerly occupied by the Richmond Iron Works have been planned by the Seaboard Air Line. The way and are scheduled for completion within the next four months. The tunnel will furnish space for double track, and will be cut in the hill which extends from Tenth to Seventeenth and Broad streets.

The purpose of constructing the tunnel is to connect the outer lines of the corporation with the freight station, which will be built on plane calling for a building forty feet wide by 700 feet deep.

The company has secured property rights extending to the most easterly house on the north side of Broad Street, and there is sufficient space for the opening of a large yard.

Plans for the work, which calls for a concrete tunnel, have been submitted, and bids will be opened on April 7. Just beyond the lot on which the improvements are contemplated the Chesapeake and Ohio passenger station now stands, and one benefit from the work will be a junction of the two roads, which will greatly facilitate the handling of freight between the two roads. There will be no delay in pushing the enterprise to a completion.

The contract price for the improvements to be made by the Seaboard Air Line is approximately \$125,000.

PRESIDENT MAY COME

Taft May Accompany Veterans of Potomac Here Next Fall. From letters recently received by Mayor D. C. Richardson, Richmond will probably be visited early next fall by President Taft and the members of his Cabinet.

H. C. King, secretary of the Army of the Potomac, has written him that President Taft has agreed to propose to visit the city next September. Another letter says also that they may be accompanied by the Seventh Regiment of the New York National Guard.

General King says that it will probably be possible to induce President and the members of the Cabinet to make the trip to this city. The Mayor has taken the matter up with the Chamber of Commerce and the Business Men's Club, both of which have promised hearty support. He will write a letter to-morrow inviting them to come, and extending to them the hospitality of the city.

CHEWED HER FINGER

Colored Woman Resorts to Cannibalism in Fighting Adversary. Nannie Brooks and Mary Mayberry, both colored, engaged in a fight last night, and Mary stabbed Nannie, it is alleged, in the forehead and over the eye with a two-pronged fork, and then chewed off one of her fingers. Dr. Carr was called also to attend William Ruffin, colored, who had been stabbed in the left shoulder by her husband. Though she was badly cut, the woman attempted to bail her husband, and offered to bring him food and covering for the iron cot in his cell.

YALE'S WATER-WAGON

Graduating Class Forakes Beer, Votes Water Its Favorite Drink. [Special to The Times-Dispatch.] NEW HAVEN, CONN., March 27.—The prohibition wave has hit the Yale senior class, and '09 academic to-day announced its vote for water as its favorite drink. Beer has stood as the traditional drink for Yale seniors, except for one year, when the class played a joke on itself by voting for milk. In the past Yale might have been the University of Heidelberg or Göttingen, as far as its drink was concerned. But this year Yale handed down its vote for water by a ballot of 4 for water, coffee made a hot run with 19 votes, and 14 stood loyally for milk. Of the class, more than half confess they have used stimulants. It voted "Crossing the Bar" as its favorite poem. Of the prizes to be won in college, the Phi Beta Kappa Key is voted the most to be sought for. Pro-
